PROFILE

I am a passionate front-end developer with experience building optimized, user-friendly interfaces across various platforms, including interactive TV applications. Proficient in modern front-end technologies, I design and develop responsive, scalable, and efficient web applications. I am also starting my mobile development journey by learning React Native.

EDUCATION

Islamic University of Lebanon,
Bachelor of Computer Science - 3.5/4

Oct 2022 – Jul 2025

SKILLS

JavaScript — *Typescript, Reactjs, React Native, nextjs, nodejs, expressjs*, **C++, C, Python, Java, Testing** — Jest, E2E, Integration, **HTML/CSS** — *Tailwind, SASS*, **Firebase, Linux, PHP, SQL** — *Oracle, Microsoft*, **NOSQL** — *MONGO*, **Git, Problem Solving**

EXPERIENCE

AlphaTech Group, *Front-End internship*

Jun 2024 – Sep 2024

- Engineered and optimized interactive TV applications leveraging advanced front-end technologies to enhance user experience and performance.
- Enhanced application performance and responsiveness across diverse screen resolutions and input devices through precise optimization.
- Collaborated with cross-functional teams including designers and back-end developers to deliver cohesive and high-quality user interfaces.

Freelance Project, *Full-Stack Project*

- Developed an online academy platform as part of a freelance project, handling the entire database schema design and backend logic implementation.
- Designed and implemented an authentication system to manage user access and subscriptions, ensuring secure and seamless user experience.
- Currently enhancing the platform by developing a user-friendly dashboard for easier administration and control of the academy.

Personal Blog, *Full-Stack project*

- Developed a personal blog website using the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- Implemented functionalities including user authentication, allowing users to register, login, and manage their accounts securely.
- Designed and integrated a user-friendly interface for creating, editing, and deleting blog posts, providing a seamless blogging experience.

ADDITIONAL

GDSC core team member, *C++ Tutor, Kotlin bootcamp leader*

Our main mission is to help students who seeks to develop there technical skills.
